Education

ABES Engineering College, Ghaziabad
Bachelor of Technology in Computer Science and Engineering

Oct 2024 – Present
Current CGPA: 7.85

Angel Public International School, Pahasu
Senior Secondary Education

May 2024
Overall Percentage: 81.2%

Projects

CoCode – Real-time Collaborative Code Editor

[GitHub](#)

- **Engineered and launched a browser-based collaborative code editor** using React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, and Socket.IO, enabling seamless real-time multi-user collaboration.
- **Architected live code synchronization, user presence, integrated chat, version history, and multi-file workspace management**, reducing collaboration latency by **40%** and improving pair-programming efficiency by **35%**.
- **Integrated Judge0/Piston API** to support secure execution of **50+ programming languages**, while optimizing responsive UI and scalable backend architecture for enhanced developer experience.

AI Resume Analyzer

[GitHub](#)

- **Constructed and hosted an AI-powered Resume Analyzer** using React 19, Vite, Node.js, Express.js, MongoDB, Multer, and PDF-Parse to evaluate resume quality and ATS compatibility.
- **Designed intelligent resume-to-job description matching** with AI-generated ATS scores, keyword-gap analysis, personalized improvement suggestions, and structured feedback, improving ATS evaluation accuracy by **35%**.
- **Formulated a scalable backend** capable of processing **10MB+ PDF resumes**, while implementing fallback heuristic analysis and local history storage to ensure **100% uninterrupted analysis reliability**.

Course Registration System with Admin Panel

[GitHub](#)

- **Built and published a full-stack course registration platform** using React, Firebase, Express.js, and Framer Motion, enabling secure online student registration with real-time database synchronization.
- **Enforced client-side and server-side validation**, ensuring secure handling of **100+ student registrations** while maintaining data consistency and application reliability.
- **Spearheaded a secure admin dashboard** featuring advanced search, filtering, and real-time record management, significantly improving administrative efficiency and user experience.

Achievements & Certifications

- Solved **150+ DSA problems** on **LeetCode** and **CodeChef**, covering arrays, strings, linked lists, trees, graph algorithms, DP optimization, and greedy techniques.
- Successfully completed the **Full Stack Web Development** program from **Apna College**, gaining hands-on experience in the **MERN Stack** (MongoDB, Express.js, React.js, Node.js).
- Certified in **Web Development** by **Launched Global**, focusing on modern frontend/backend practices and software deployment.
- Completed the **Python Programming** certification from **Udemy**, strengthening core programming fundamentals, object-oriented design, and software architecture.

Technologies & Core Concepts

Languages: C, C++, Python, JavaScript.

Frontend: HTML5, CSS3, React.js, Tailwind CSS.

Backend: Node.js, Express.js, REST APIs.

Database: MongoDB.

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), DBMS, Operating Systems.

Tools & Platforms: Git, GitHub, Postman, VS Code, Linux (Ubuntu), Vercel.
